To Whom It May Concern,

COVID-19 Stage 4 restrictions in Victoria, Australia.

Yesterday Premier Daniel Andrews announced metropolitan Melbourne will move to Stage 4 restrictions, with curfews in place.

As a result of Stage 4 restrictions, today Premier Andrews announced many businesses would be either closed or scaled back.

I am happy to advise that being an ancillary business involved in the production, supply, manufacture, repair, maintenance, distribution, or sale of equipment, goods or services necessary for the operations of a permitted work site, WPC will continue to operate with a COVID safe plan in place.

If you have any questions, please do not hesitate to contact either myself or Simon Lipshut – Engineering Services Manager Victoria (M: 0428 094 398)

Thanks

Yours sincerely,

Magnus Petersson
